What You'll Gain

7 week Curriculum

Sep 2, - Sep 8

Present to an Engineer

Sell   Speak   Ask

Aug 26, - Sep 1

Ship to 1000 users

Branding   Deadlines   UI

Aug 19, - Aug 25

AI Rate My Professor

RAG · OpenAI · Vectors

Aug 12, - Aug 18

AI Flashcards & Stripe

OpenAI · Auth · StripeAPI

Aug 5, - Aug 11

AI Customer Support

OpenAI · NextJS · AWS

Jul 29, - Aug 4

Pantry Tracker

ReactJS · NextJS · Firebase

Jul 22, - Jul 28

Personal Website

HTML · CSS · DNS

Success Stories

N H

Software Engineer Intern at Google
Carnegie Mellon University'23, Offers:

Google · accenture · J.P.Morgan · amazon · CapitalOne

facebook · NTT DATA · NORTHROP GRUMMAN · mongoDB

Raja Adil

Software Engineer Intern at Citadel
Cal Poly SLO'25, Offers:

intel. salesforce NORDSTROM PayPal now

Nazmul Karim

Software Engineer at JPMorgan
Queens College'21, Offers:

accenture J.P.Morgan NORTHROP GRUMMAN
TRAVELERS NTT DATA

David Zhao

Software Engineer at CapitalOne
Stony Brook University'21, Offers:
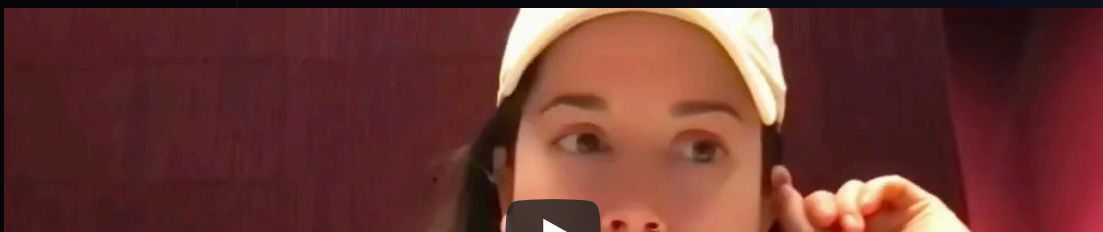

CapitalOne Nike

Amzad Chowdhury

Software Engineer at Microsoft
Queens College'18, Offers:

Microsoft   Bank of America   ally

Learning is commoditized. Community and real human feedback is coveted.

#1 Community for Software Engineers

Michelle
Former CPO of Hinge and Ex Netflix Director

Spoke at our 5/9 Pathways to Tech Event

Baxate Carter
Founding Engineer of Brev.dev

Spoke at our 2/1 Pathways to Tech Event

**Klinton Bicknell**
Head of AI @ Duolingo

Spoke at our 3/14 Pathways to Tech Event

Mark Benliyan
Software Engineer at Figma, Netflix

Spoke at our 5/9 Pathways to Tech Event

What were the results from those who did the fellowship before? ⌄

Headstarter has run this software engineering fellowship 7x in the past with 300+ past fellows. 50% got software engineering full-time or internship offers(s) 6 months after completion at companies like Google, Apple, Bloomberg, Citadel, Two Sigma, Meta and top-tier startups. Since then Headstarter has built a super network of 400 software engineers and 30 unicorn founders to build an all-in-one platform to crush coding interviews.

What makes Headstarter different from other programs? ⌄

Our pedagogy: Build. Measure. Learn. In that order.

Each week's project is a higher difficulty than before. Projects will have a 5-day deadline (due Friday) where you will have to submit a 2-min demo of your code and bugs you ran into.

How will real software engineers give feedback? ⌄

Expert human feedback:
1. Few projects will randomly be selected for feedback on a live call. Using that as an example, peers will be encouraged to give feedback to each other.
2. Top-20 teams every week will demo on a live call for 5mins.
3. Final week everyone will have an option to get feedback from a software engineer for a certificate.

What happens if you miss a deadline? ⌄

If you do not submit by the deadline, you cannot enter the hackathon and will not move on to the next project. Each week there will also be requirements to upload a resume, personal brand links, blog posts or social media coding content and get 70% on 1 data structures and algorithm interview with our AI instructor trained on 400 software engineers.
